Skills

- HTML
- CSS
- BOOTSRAP
- JAVASCRIPT
- REACT.JS
- VUE.JS
- SQL
- MONGODB
- NODE.JS
- C#
- C
- PYTHON
- OOP (OBJECT ORIENTED PROGRAMMING)
- VISUAL STUDIO CODE
- MICROSOFT OFFICE PROGRAMS (WORD, EXCEL ETC.)
- HIGH COMMUNICATION SKILL
- PROBLEM SOLVING ABILITY
- TEAM WORK

Languages

Turkish

English

Experience

International Student Office

2021 – 2025

Part-Time Student

I previously worked part-time at the International Student Office at Çukurova University. My responsibilities mainly involved assisting incoming and outgoing Erasmus students and handling related office tasks.

Eterna Software Technology Intern

2025 – Present

I am currently completing my mandatory internship at Eterna Technology. As a front-end intern, I actively take part in web development projects, where I use technologies such as HTML, CSS, JavaScript, React.js, and Vue.js. This experience allows me to improve my skills in building user-friendly interfaces and understanding real-world software development processes.

Education

Çukurova University

2020-2025

I started my studies at Çukurova University, Department of Computer Engineering, in August 2020 and graduated in June 2025.

About Me

I am a recent Computer Engineering graduate from Çukurova University (June 2025). Throughout my academic journey and internship experiences, I have gained hands-on experience in both front-end and back-end technologies.

I have worked with HTML, CSS, Bootstrap, JavaScript, React.js, Vue.js, and Python on the front end, and I have basic knowledge of back-end tools like Node.js, MongoDB, C#, and SQL.

Currently, I am focusing on becoming a Full-Stack Developer by improving my skills in both areas. I am also familiar with version control tools, object-oriented programming, and have strong communication and problem-solving abilities.
